OTS Guardian Full Face Mask inc. Diver Comms (Super Mic)

OVERVIEW

The OTS Guardian line of Full-Face Masks (FFMs) is the most recent diving innovation from OTS. Designed to meet the demanding needs of today's Commercial/Professional Diver it leverages the best features found on other FFMs with unique features.

DESCRIPTION

The Ocean Technology Systems (OTS) Guardian line of Full-Face Masks (FFMs) is OTS' most recent innovation. Designed to meet the demanding needs of today's Commercial/Professional Diver, it leverages the best features found on other FFMs with unique features designed by OTS. The Guardian Full Face Mask & Regulator with Black Skirt and Black Hardware features an integrated high performance 2nd stage and includes the 2nd Stage hose, which comes off the right side (most preferred by divers). The Guardian includes ABV-1 Surface Vent for ambient air breathing installed, which allows the user to breathe ambient air at the surface), hose, and mask bag. This Guardian Full Face Mask has advanced air circulation to prevent mask fogging and the user is able to breathe comfortably and naturally through both the nose and mouth. The easily adjusted equalizing system helps fit virtually all noses, and the easily adjustable head straps and robust buckles can fit nearly every head size.

FEATURES

Easy Cleaning: Removable 2nd stage for easy cleaning and storage (can't be used without mask)

Quality Build: Made of a one-piece, non-rigid silicone skirt combined with injection-molded, high-impact, glass-filled ABS plastic frame and regulator housing

Fitting: A double face seal and slightly smaller oral nasal cavity to fit most faces

Equalization: Equalization occurs through a nose block.

Eliminate Fogging: Air flow is directed up over the visor to eliminate fogging and through one-way valves in the oral nasal pocket to reduce CO2 retention.

LP Hose: 2nd stage comes off the right shoulder and uses a standard LP hose

Ambient Breathing Valve

Communications Port: Includes a communications port for easy installation of a Buddy Phone® or ear/microphone
