OVERVIEW

Beaver seamless steel cylinder packages are manufactured to stringent standards set by the demanding European PED specification to ensure your CE marked cylinder is allowed for use throughout the European Community - unlike other inferior designs.

DESCRIPTION

The seamless steel cylinder packages are manufactured to stringent standards set by the demanding European PED specification to ensure your CE marked cylinder is allowed for use throughout the European Community - unlike other inferior designs.

FEATURES

Strong Build: The body, manufactured from precision grade Steel exceeding BS 708 A 37, provides a high tensile strength and an elastic modulus that is 3 times superior to Aluminium.

Cylinder Coating: The cylinder is precision coated by 40µm Flame Spray Galvanising, an anti oxidising RAL 9010 precoat and a smooth, tough lacquer finish.

Supplied Ready to Use: The cylinders are supplied O2 clean for mixed gas compatibility and ready for use with Nitrox or Trimix if assembled in an appropriate environment with O2 clean valves & equipment and include a M25 X 2 thread cylinder valve with EN-144-3 outlet which allows use with INT or G 5/8 DIN attachments. A High Tensile Polymer cylinder boot which allows vertical storage is also included.

SPECIFICATION

10 Litre 232 Bar Bailout Cylinder

Length - 590mm
Diameter - 171mm
Weight - 13.6kg

12 Litre 232 Bar Bailout Cylinder

Length - 690mm
Diameter - 171mm
Weight - 15.4kg

15 Litre 232 Bar Bailout Cylinder

Length - 635mm
